

About the NFL & United Way Partnership

For more than 35 years, United Way and the National Football League (NFL) and its teams have been working together to help strengthen America's communities. Today, the NFL and United Way are leveraging resources and relationships to raise awareness about the importance of youth health and fitness and create opportunities for kids to lead healthier lifestyles. It's part of United Way's 10-year goal to increase by one third the number of youth who are healthy and avoiding risky behavior.
