TO MAKE A MONETARY DONATION: Visit United Way of Western Connecticut’s website at www.uwwesternct.org/backtoschool

2020 marks the 29th year that the United Way of Western Connecticut will provide Back-to-School support for local children living in Southern Litchfield County who are entering school in August. We have been able to continue the program this year, due to a very generous anonymous donor.

Due to the impact of the COVID-19 virus, the return to school this year will look and feel much different to the students, their parents and the school staff. We won’t be providing backpacks but we will continue to supply each child a gift card and a package of needed supplies, geared to their grade level, that will support their class work and projects both in-school and during remote learning.

Thank you for supporting Back to School, Southern Litchfield County!
